

WIKI SEMINAR PART II – WORKING TOGETHER

In this seminar (about 3 hours) I hope we can review what we learned in part I and work collaboratively together (in pairs or in groups of three) and practice sharing a wiki, editing or suggesting each other for content and working in a student/teacher relationships.

Agenda

1. Welcome and find a partner
2. Go over the goals for the seminar
3. Open your old wikispace account
4. Review quickly functions (Valeria will guide you through this quick review)
 - a. A bit of review on how to add a video
5. Build a joined wiki
 - a. One of you in the small group sets up a wiki according to the assigned name and direction sheet
 - b. The person who creates the wiki invites others in the group to join the wiki
 - c. Once the invitee has joined the organizer of the wiki makes the partner an organizer
 - d. Then you begin to build your wiki assigned pages
 - e. Collaborate
6. Share your wikis – present what you have done
7. Break
8. Ask someone to be your student
 - a. Students complete one activity according to the wiki instruction
 - b. Then go back to your wiki and as a teacher see what your students have done and provide feedback

Small Group Work Wiki Directions

In your small group work on these – remember to access the seminar pages if you forgot how to set up the different tasks in your wiki.

1. Person A builds a wiki page called: _____
 2. Person A invites everyone else to join the wiki
 3. Once people joined the wiki, person A makes everyone who joined an organizer of the wiki.
 4. Once everyone is an organizer of the wiki, split roles to begin to create the following pages:
 - Home page (the default – do not change for now)
 - **01_IntroL1 (person A) (substitute L1 for your language – i.e. 01_IntroItalian)**
 - 01_IntroL2 (person B) (substitute L2 for your language – i.e. 01_IntroSpanish)
 - 01a_IntroL3 (only if there are three of you in a group)
 - **02_VocabL1 (person A)**
 - 02_VocabL2 (person B)
 - 02a_VocabL3 (only if there are three of you in a group)
 - **03_PracticeL1 (person A)**
 - 03_PracticeL2
 - 03_PracticeL3
 - **04_TaskL1 (person A)**
 - 04_TaskL2
 - 04a_TaskL3
-

Follow instructions for each task:

01_Intro: on this page you will welcome everyone to your 3-page shared wiki and will explain what the wiki is about. Write some text – if we have time you will place a Voki on it.

02_Vocab: on this page place at least 7-9 vocabulary words in your language. For each word find and place an image, add the caption to the image and under each image use one or two examples of sentences to use the word in context.

03_Practice: on this page add one or two practice activities students can do with the words in your Vocab page. You could add a video (embed or link). You could create an Audiopal for practice, or place a link to an activity you found on the internet.

04_Task: on this page you will create one short task that students visiting your wiki can complete based on the information on the previous pages. Give directions such as complete something and then e-mail me... or post something, or a questionnaire, etc.
